# Gloss Interior Enamel Finish

---

Combines Beauty and  
Perfect Service

---

**F**OR interior enamel finishing where a beautiful - durable - washable - high gloss - easy to apply enamel finish is desired.

We all wish our surroundings to be beautiful and sanitary, but owing to the fact that most enamel finishes have a tendency to "work hard," many folks have heretofore used an ordinary paint for their interior painting.

In B. P. S. Gloss Interior Enamel Finish we offer an easy working product that can be applied with the same effort and time as ordinary paint - but the results obtained are so superior that this finish is placed in a class by itself. Our complete directions,

25 IVORY

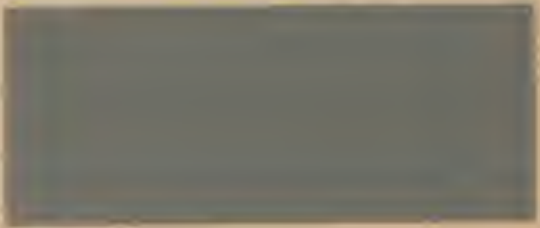

3 PLATINUM GRAY

10 CREAM

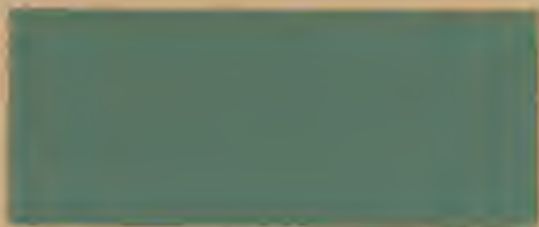

17 LIGHT OLIVE

15 SILVER GRAY

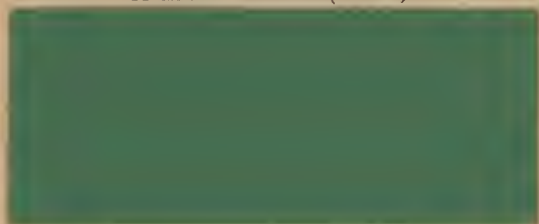

Also No. 9 WHITE

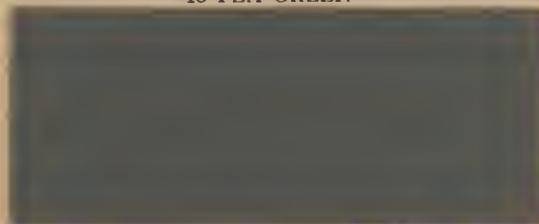

13 AZURE

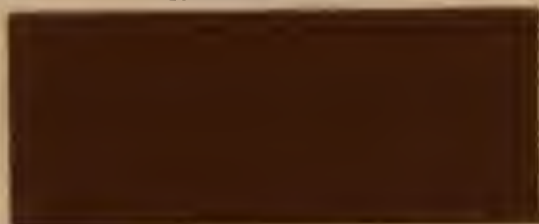

11 LIGHT FAWN (BUFF)

18 PEA GREEN

16 FRENCH GRAY

22 LIGHT BROWN

given in this folder, enable you to approach "the work in hand" with confidence and assurance that your "finished work" will be beautiful - sanitary - washable and satisfactory.

Recommended for kitchen walls and ceilings, bathrooms, woodwork, lavatories, cupboards, furniture, radiators, brick and plaster work, metal ceilings - in fact, its use for inside finishing is almost universal.

Can be washed repeatedly with soap and water without injury to the finish, thereby keeping it in a wholesome and sanitary condition.

---

## **No. 9 WHITE**

B. P. S. Gloss Interior Enamel Finish No. 9 White is known as the "White that stays White." Will not turn yellow from repeated washings with soap and water - a beautiful - easy to apply - snow white enamel finish that retains its beauty indefinitely.

**Covering Capacity - One Coat - About 550 sq. feet to the gallon. Two Coats - About 300 sq. feet to the gallon.**

## DIRECTIONS FOR USE

### SHADES

Stir B. P. S. Gloss Interior Enamel Finish thoroly - pour it back and forth from can to can.

See that the surface to be painted is dry and free from greasy substances, dirt and all loose paint. The temperature should be between 60 and 80 degrees.

**OLD WORK** - Apply one or two coats of B. P. S. Gloss Interior Enamel Finish, depending on the surface to be painted.

**One Coat Work** - Apply just as it comes in the can. **Two Coat Work - First Coat** - Reduce with one pint of turpentine to the gallon. **Second Coat** - Apply as it comes in the can.

**NEW WORK** - On wood, plaster, composition board, metal, etc. **Two Coat Work - First or Priming Coat** - Reduce with one quart of pure raw linseed oil to the gallon. **Second or Finishing Coat** - Apply as it comes in the can. **Three Coat Work - First or Priming Coat** - Reduce with one-half gallon of pure raw linseed oil to the gallon. **Second Coat** - Reduce with one pint of turpentine to the gallon. **Third or Finishing Coat** - Apply as it comes in the can. Allow at least 36 hours between coats. If the B. P. S. Gloss Interior Enamel Finish is too heavy to brush freely reduce with a small amount of turpentine. If extra fine work is desired, sandpaper first coat lightly.

### WHITE

---

Stir B. P. S. Gloss Interior Enamel Finish White thoroly - pour it back and forth from can to can.

See that the surface to be painted is dry and free from greasy substances, dirt and all loose paint. The temperature should be between 60 and 80 degrees.

**OLD WORK** - Apply one or two coats of B. P. S. Gloss Interior Enamel Finish White, depending on the surface to be painted.

**One Coat Work** - Apply just as it comes in the can. **Two Coat Work - First Coat** - Reduce with one pint of turpentine to the gallon. **Second Coat** - Apply as it comes in the can.

**NEW WORK** - On wood, plaster, composition board, metal, etc. **Two Coat Work - First or Priming Coat** - Apply B. P. S. Flat White reduced with one quart of pure raw linseed oil to the gallon of paint. **Finishing Coat** - Apply B. P. S. Gloss Interior Enamel Finish White just as it comes in the can. **Three Coat Work - Priming Coat** - Same as on two coat work. **Second Coat** - Apply B. P. S. Flat White reduced with one pint of turpentine to the gallon. **Finishing Coat** - Apply B. P. S. Gloss Interior Enamel Finish White as it comes in the can. Allow at least 36 hours between coats. If the Enamel Finish is too heavy to spread freely, add a small amount of turpentine - **do not use linseed oil**. If extra fine work is desired, sandpaper first coat lightly.
